## INSIDE THIS ISSUE:

## MORE SHAREFILE OPPORTUNITIES

## THANK YOU

## More ShareFile Opportunities.....

It has been about a year since PRS has been using ShareFile as a repository for information about your Plan. Now that you have probably used ShareFile to view your pension files, you can appreciate the value this system affords. You no longer have to keep volumes of papers in your file cabinet or on your shelves. Instead, you can go to your ShareFile folder and perform many activities, such as:

- ◇ viewing your files
- ◇ downloading files in your folder to store on your own system
- ◇ downloading files in your folder to complete and return to us
- ◇ downloading files in your folder for distribution to participants as needed
- ◇ uploading information to your folder that we have requested

All this can be accomplished with only a few clicks, all in a secure environment.

If you like the system, we'd like to introduce you to the idea of the ShareFile App...

Suppose you're on a golf outing or away from the office on a business trip. You get a call from us, from your accountant, or from one of your employees about the pension plan. In the past, you might have said, "You'll have to wait until I'm back in the office." But now, if you have downloaded this app to your mobile device, you whip out your smartphone or tablet, click on the ShareFile app you downloaded last week, and log in to open up your account. Voilà! The information you need is at your fingertips even though you are not in your office.

If this ready availability of ShareFile for your pension information appeals to you, just go to the App Store on your device (e.g., Apple App Store, Google Play Store) and search for ShareFile by Citrix. You're now on your way. Almost instant plan information at your fingertips!
